

Mounir BAZZAOU

SENIOR BUSINESS INTELLIGENCE EXPERT

Results-driven Head of Data & Analytics with 15+ years of experience leading enterprise-wide data initiatives across Banking, Insurance, Audit, HR, Automotive, and Retail industries. Expertise in data strategy, governance, BI, and predictive analytics, leveraging machine learning (ML) models for customer segmentation, risk assessment, and demand forecasting. Skilled in BI tools (Power BI, Tableau, SAP BO, IBM Cognos), ETL & data engineering (SSIS, Informatica, Talend), and cloud-based analytics (Azure, AWS, GCP). Proven ability to build and lead high-performing teams, drive data-driven decision-making, and implement AI-powered solutions to optimize business performance. Passionate about bridging the gap between data and strategy to maximize ROI and foster a data-centric culture.
